

GUSTAVUS COMMUNITY GARDENS

COVID-19 Best Practices for Garden Users

Gardeners should take precautions to allow safe enjoyment and minimize the potential spread of COVID-19.

- Do not visit the garden if you or any household member are feeling ill or showing signs of illness
- Follow all the State of Alaska and City of Gustavus COVID-19 guidelines following travel, which means stay home/away from garden for 14 days after anyone in your household returns to Gustavus.
- Follow all the State of Alaska and City of Gustavus COVID-19 guidelines for social distancing, which means stay at least 6' from others and avoid prolonged social interactions. Wearing face masks can also limit transmission potential.
- Wash/sanitize your hands before and after visiting the garden
- Wear gloves when using shared tools, or bring your own tools to use
- Wash produce you bring home to reduce risk
- Policies subject to revision, particularly as positive cases appear in Gustavus
