COVID-19 Operating Plan  
June 1, 2020

The owners and staff of Snug Harbor Liquor are taking the following steps to protect each other, our patrons and our community. Toward this end we will follow a non-contact retail protocol until such time as testing or therapeutics improve Covid-19 outcomes.

The first time around we will ask you to fill out our credit card authorization form or just put your information (not your security code please) with signature on a piece of paper. If you are a visitor here will check your ID at this time. After this initial step you can place your order via email before 4:00PM, Monday through Friday, or leave your shopping list in the drop box by the back door. Then between 5PM and 7PM drive into the driveway to the sign, open a door or trunk, and return to your car while we place your items in your vehicle.

We sanitize the store work surfaces and common areas daily. We wear masks and gloves to protect each other and you. No staff will be allowed to work if feverish or feeling ill, and testing will be initiated. If any staff member tests positive, all will be tested, and all on that shift will quarantine till testing negative.

Thank you for your patience while we learn new systems.

Bruce, Colleen and the Gang
